

SEP Rail Engineering

Engineering Capabilities

**Part of the SEP Group of companies, we've been adding value to our clients' projects for over 30 years. To find out how we could support you, please get in touch.**

Our vision is to be a leading supplier of engineering services to the rail industry whilst ensuring safety and technical excellence is at the heart of everything we deliver.

That's why our technical expertise is always backed by sharp strategic thinking, whether we're optimising existing assets and services, or designing and building whole new railways.

## Engineering Consultancy

- Delivery planning of project lifecycle
- Multi-disciplined collaboration
- Design assurance
- Value engineering
- Client scope and change management
- Project feasibility including value analysis
